## Summer Program: Brief Description

The Essel Learning Centre offers the same courses in the summer (July – August) as it does in the regular school year (September – June). The summer program is intensive and fast-paced; students attend classes four times a week in the summer as opposed to once a week during the regular school year. Due to time constraints, only four out of the five sessions in the regular school year program are covered in the summer (sessions are marked A, B, C and D in the calendar). If you should have any questions, please do not hesitate to contact us.
